

SUMMARY

A full stack developer with 1+ years of experience, and with a passion for developing applications in Ruby, React, and Javascript, built over 20+ projects using different tech stacks with user accessibility and pixel-perfect design. Collaborated with 50+ developers across the world remotely and I had the chance to work with teams and delivered projects successfully. I am a passionate software developer and believe in creating something new out of the box.

EXPERIENCE

Microverse, Remote Mentor May 2022 – Present

- Mentored 15+ junior web developers, providing technical support through code reviews with 1:1 interaction. As the experience is ongoing, the verbs should be in the present tense to reflect the current situation.
- Propose improvements to code organization to improve code quality and overall performance by 50%.
- Provide advice and tips on maintaining motivation to maintain longevity in the program.

Fever, Remote Freelancer August 2021 – Present

- Create optimized, scalable, secure, and responsive 10+ websites.
- Create engaging and high-quality written content for clients.
- Receive 5-star ratings with positive feedback on all projects or works.

EDUCATION

MICROVERSE May 2022 – Present
Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

TRIBHUWAN UNIVERSITY June 2007–July 2010

- Bachelor in Science, Major in Physics, Minor in Mathematics Received the Appreciation Medal. I got 3rd position in my stream batch
